Quickbooks is an essential part of my business as it allows me to perform a number of accounting functions including, but not limited to, paying bills, creating invoices, tracking receivables, producing financial reports, etc. Wakefield Co-operative Bank's integration of Quickbooks to its online banking function is critically important not only to me personally, but also to any business owner using this function on a daily basis.

By executing a few easy key strokes or clicks of the mouse, I am able to synchronize my Quickbooks Check Register to my online bank account in real time. The Quickbooks Chart of Accounts enables me to efficiently categorize everything and ultimately produce fast and accurate reports for personal analysis or submission to my accountant. Very simply stated, the ease and functionality of Quickbooks added to WCB's online function saves time and adds great value to my business.
